Evidencing Your Work

Throughout the course, you will be asked to evidence your work and all of your creative decisions. Here are some bullet points as a guide:

- What did I do?
- What did I change?
- What equipment did I use?
- How did I manipulate the audio?
- What went well?
- What would I do differently next time?

Screen shots are an integral part of how you evidence and **MUST** be included in every report. Here is an example...

I added a low EQ boost to the lead vocals to warm up the sound - I also added some top frequencies to help accentuate the consonant sounds in the lead vocal as it was becoming slightly blurred and unclear.
